

Village of Tequesta Building Department

345 Tequesta Drive, Tequesta, Florida 33469-0273

TREE PROTECTION AGREEMENT AFFIDAVIT

Inspection of tree protection fencing must be requested and approved prior to first regular inspection.

Trees and other vegetation which are to be preserved on the site of a construction project shall be protected from damage during the construction process in accordance with appropriate tree and vegetation protection techniques. At a minimum, all vegetation areas shall be fenced with screening to prevent damage. Any tree or other piece of vegetation intended to be preserved on site but which does not survive the construction process shall be replaced with a tree or other vegetation comparable in size and quality PER Village of Tequesta Code of Ordinances Section 14.4.

I, _____, do hereby agree and certify that all trees located within the immediate proximity of proposed construction at the job site address listed below shall be properly fenced in accordance with the tree protection standards for construction sites; thus preventing damage of the tree's critical root structure by heavy equipment, trucks, trenching, etc. and providing the maximum level of protection.
