

DIY WEED KILLER

Ingredients:

- 1 gallon Vinegar
- 2 cups Epsom Salt
- 1/4 cup Dawn Dish Soap
(the blue original)

It will kill anything you spray it on. Just mix and spray in the morning, after the dew has evaporated. Walk away. Go back after dinner and the weeds are all gone!

Cheaper than anything you can buy anywhere! Never buy and use Round-Up again!

Does your lawn care crew also take care of weeds in your planting beds, driveway and around your landscape? If they do, for your family's health and safety and that of your pets, inquire if they are properly trained and licensed by the state to do so?

Unless your landscape maintenance company is also licensed as a pest control business or has employees that have received "Limited Certification" by the State, they are not approved to be spraying herbicides around your property or applying "weed-n-feed" products on your lawn.

For your information, Tequesta, Jupiter and numerous communities around the state and country have passed restrictions on the use of Glyphosate-based herbicides (e.g. Roundup) on public property like parks & ballfields.

For more information on Pesticide Regulations, Use & Safety, visit the [Environmental Committee webpage](#).
